

Suttle Stone Quarries

Customer:	The East Bar & The Ship Inn Swanage
Material:	Gabion Limestone
When:	East Bar - 2017, The Ship Inn - September 2019

Overview:

Suttle Stone Quarry supplied and delivered 100-200mm of Dorset Gabion Limestone to the East bar, Swanage.

The Gabion was requested to create Gabion table bases for the outside seating of the public house.

The Ship Inn, (which recently became sister pub to the East bar) swiftly followed suit and again we delivered the same materials in bulk bags with our local Hiab and driver.

With both public houses being fairly close to the sea front and being subject to the strong winds and Sea water that can damage a lot of outside furniture, The benefits of these tables apart from the weight and being very sturdy is the natural materials used which help to keep them in great condition for many years.
