8th April 2020

To whom it may concern,

Thank you for finding time to view this information. We appreciate that, especially with circumstances as they are, proposals for a planning application to extend Swanworth Quarry may seem unimportant in the grand scheme of things. However, a consultation on the matter is necessary and it is one area of our work that can be organised electronically without current government (COVID-19) restrictions being a barrier to safe completion.

Originally, we had planned and advertised this stage of public consultation, as a physical exhibition, on 21st March 2020 at Swanworth Quarry. We hope that one benefit to completing the process online instead, is that we will be able to reach a wider audience, that might not otherwise have been able to attend on 21st March Information Day, had the event gone ahead.

This letter is accompanied by a PDF document that outlines the proposed planning application, a series of 'Virtual Quarry Tour' videos for a very brief look at Swanworth Quarry past, present and future and, importantly, a link to the survey where you can make comments on the planning application proposals.

Thank you for taking the time to view our proposals; we welcome all constructive comments and points of view. This is an important chance to affect the content of our planning application submission.

Yours sincerely

John Suttle
Operations Director

Simon Clabburn
Director of Quarrying
